

GST COMPLIANCE & TAX ANALYSIS SUMMARY REPORT

Project Objective

To analyse GST transactions using a sample dataset, calculate CGST, SGST and IGST, monitor payment status, and present business insights through an Excel dashboard.

Project Scope

The project includes GST calculations, invoice analysis, pivot tables, pivot charts, KPI cards, slicers, and an interactive dashboard created in Microsoft Excel 2021.

Key Findings

- GST transactions were analysed across customers, products, and states.
- GST collected was classified into CGST, SGST, and IGST for accurate reporting.
- Monthly sales trends and state-wise sales highlighted business performance.
- Payment status analysis identified paid and pending invoices.
- Interactive slicers enabled dynamic analysis by state, GST rate, product, and payment status.

Tools & Skills Demonstrated

Microsoft Excel 2021 • Pivot Tables • Pivot Charts • Slicers • GST Analysis • Dashboard Design • Business Reporting

Conclusion

This dashboard provides a clear overview of GST transactions, tax collections, and payment performance. It demonstrates practical GST reporting, data analysis, and dashboard development skills relevant to finance and accounting roles. **Source:** Sample GST Dataset (Portfolio Project)
