

Project 1 – Coffee Shop Sales Dashboard

Objective

Developed an interactive Excel dashboard to analyze coffee shop sales performance and provide meaningful business insights using PivotTables, PivotCharts, KPI cards, and slicers.

Tools Used

- Microsoft Excel 2021
- PivotTables & PivotCharts
- Slicers
- Excel Formulas
- Dashboard Design

KPIs

- Total Sales
- Total Orders
- Average Order Value
- Total Profit
- Top Store Location

Dashboard Visualizations

- Monthly Sales Trend
- Sales by Category
- Payment Method Distribution
- Profit by Store
- Top 5 Products

Key Insights

- **Downtown** generated the highest overall revenue among all store locations.
- **Latte** was the best-selling product based on sales performance.
- The dashboard enables users to analyze sales by store, category, payment method, and salesperson using interactive slicers.
- Monthly sales trends help identify business performance over time and support better decision-making.

Skills Demonstrated

- Data Cleaning and Preparation
- Data Analysis
- KPI Development
- Dashboard Design

- Business Reporting
- Data Visualization
